

### **Conflicts/Declaration of Interests**

The reputation of the LINK as an open, fair, professional (BODY OR BEING) with high standards of integrity and commitment to its aims and objectives is dependent on the LINK members.

Members must not allow any interests to conflict with the effectiveness of the LINK. A declaration of interest should be raised if this becomes evident.

Members will be required to make written disclosures to the Host indicating any connections they have with organisations or agencies with whom the LINK is working or during the course of its business.

Members are responsible for updating this register when changes occur.
