

## **Overview of the Community Engagement Group's Work Plan**

**The Doncaster LINK Community Engagement Group firstly devised Community Engagement and Communications strategies to help formulate the group's thinking and to identify good working practices.**

**From these strategies and initial feedback, it was then decided to hold community roadshows in the outlying areas of the Doncaster Metropolitan Borough area to promote the work of the Doncaster LINK and to engage with the wider population. The first roadshow is to be held on Wednesday 8<sup>th</sup> April 2009 at Askern.**

**Future meetings of the Community Engagement Group will identify and plan further roadshow and engagement activities around the Doncaster borough.**

**If you require more details on the work of Doncaster LINK Community Engagement Group please contact one of the Host team.**
