

Report of Meeting of the Health and Communication Focus Group

Woodlands/Highfields Adwick Leisure Centre.

Wednesday 20th January 2010

A member of the Doncaster LINK Executive Board along with a member of the Host team represented the LINK at the focus group meeting.

It was very well attended by various organisations which discussed a way in which they could share information and engage with local communities.

Activities and Engagement Officer Colin Findley informed the group that they had 5 officers and 88 villages across Doncaster that they cover.

The meeting focused on

- Adwick
- Woodlands
- Highfields
- Toll Bar

The group identified the need for joined up working and would meet every 4 weeks until the forum got established and thereafter every 8 weeks. It would also start a calendar of events and this is where the LINK could have an information stand. Events would be displayed on DMBC website and emailed to organisations.
